Data Analytics : Pandas, NumPy, Matplotlib, Seaborn, Tableau

AI & Automation : ChatGPT, ClaudeAI, GenAI, CrewAI, OpenAI API, Prompt Engineering, Agentic AI

PROFESSIONAL EXPERIENCE

Python Developer Intern

Bestowal System and Services

Sep 2025 – Present

Pune, Maharashtra

Currently working as a **Python Developer**, where I contribute to diverse projects by engineering backend architectures and developing RESTful APIs. I work closely with cross-functional teams to build, optimize and deploy scalable software solutions that prioritize the user experience.

Full Stack Python Developer Intern

Uncodemy (Uncodemy Learning Center)

Oct 2024 – Jul 2025

Noida, Uttar Pradesh

Developed responsive and visually compelling user interfaces for web applications using ReactJS, HTML5, Tailwind CSS, JavaScript and Python resulting in enhanced user experience and engagement.

Full Stack Java Developer Intern

Besant Technologies (Learning Center)

Oct 2024 – Jul 2025

Bangalore, Karnataka

PROJECTS

Dental Clinic Management System / Python, FastAPI, ReactJS, PostgreSQL

Developed a full-stack dental clinic management application designed to streamline patient scheduling, digital record-keeping, and clinical workflows.

Secure Google Login and Email Access Application / Python, Node Mailer, Google OAuth

Developed a secure authentication system using OAuth 2.0 and Python to facilitate authorized access to the Gmail API while ensuring secure token storage and robust session handling.

Architected a high-performance backend using FastAPI and integrated a responsive React frontend to manage real-time appointment bookings and patient medical histories.

CERTIFICATIONS

- Certification of Completion on “Boot Camp Program in Python by Udemy”
- Building systems with ChatGPT API
